

Why CA APIM: Forrester® Wave Leader

“... **strong API security, integration, and mobile app support** ... among the best API security, message transformation, and integration features.”

“Layer 7 was an early mover into the API management space, which has given CA a head start to round out the features of its portal and tooling for API product managers. The gateway’s **mobile app support is also among the best in our evaluation.**”

Why CA APIM: Gartner® Magic Quadrant Leader

“Solid security features and good coverage of API management, mobile support, API implementation options and the remaining application services governance basic and advanced functionality.”

This Magic Quadrant graphic was published by Gartner, Inc. as part of a research report or research note and should be evaluated in the context of the entire report. The Gartner report is available upon request from CA Technology. The Magic Quadrant is copyrighted 2013 by Gartner, Inc. and is reused with permission. The Magic Quadrant is a graphical representation of a marketplace at and for a specific time period. It depicts Gartner's analysis of how certain vendors measure against criteria for that marketplace, as defined by Gartner. Gartner does not endorse any vendor, product or service depicted in the Magic Quadrant, and does not advise technology users to select only those vendors placed in the "Leaders" quadrant. The Magic Quadrant is intended solely as a research tool, and is not meant to be a specific guide to action. Gartner disclaims all warranties, express or implied, with respect to this research, including any warranties of merchantability or fitness for a particular purpose.
